CONTENTS OF VOLUME 358

January 1985

SEIDLER Frederic J. & SLOTKIN Theodore A. Adrenomedullary function in the neonatal rat: responses to acute hypoxia. 1

NORTH R.A. & SURPRENANT Annmarie Inhibitory synaptic potentials resulting from α_2-adrenoceptor activation in guinea-pig submucous plexus neurones. 17

CALLAHAN S.M. & CREED K.E. The effects of oestrogens on spontaneous activity and responses to phenylephrine of the mammalian urethra. 35

SIMMONS R.M. & SZENT-GYÖRGYI A.G. A mechanical study of regulation in the striated adductor muscle of the scallop. 47

JONES Christopher J. & WILSON Stuart M. The effect of autonomic agonists and nerve stimulation on protein secretion from the rat submandibular gland. 65

DULHUNTY Angela F. & GAGE Peter W. Excitation–contraction coupling and charge movement in denervated rat extensor digitorum longus and soleus muscles. 75

BELLUZZI O., SACCHI O. & WANKE E. A fast transient outward current in the rat sympathetic neurone studied under voltage-clamp conditions. 91

BELLUZZI O., SACCHI O. & WANKE E. Identification of delayed potassium and calcium currents in the rat sympathetic neurone under voltage clamp. 109

KANEKO Akimichi & TACHIBANA Masao A voltage-clamp analysis of membrane currents in solitary bipolar cells dissociated from *Carassius auratus*. 131

TACHIBANA Masao Permeability changes induced by L-glutamate in solitary retinal horizontal cells isolated from *Carassius auratus*. 153

KANEKO Akimichi & TACHIBANA Masao Effects of L-glutamate on the anomalous rectifier potassium current in horizontal cells of *Carassius auratus* retina. 169

SOMLYO A.P. & WALZ B. Elemental distribution in *Rana pipiens* retinal rods: quantitative electron probe analysis. 183

CAHALAN M.D., CHANDY K.G., DECOURSEY T.E. & GUPTA S. A voltage-gated potassium channel in human T lymphocytes. 197

HENNINGSEN Inge, LIESTØL Knut, MÆHLEN Jan & NJÅ Arild The selective innervation of guinea-pig superior cervical ganglion cells by sprouts from intact preganglionic axons. 239

FUKUSHIMA Y. & HAGIWARA S. Currents carried by monovalent cations through calcium channels in mouse neoplastic B lymphocytes. 255

ELDRIDGE Frederic L., KILEY James P. & MILLHORN David E. Respiratory responses to medullary hydrogen ion changes in cats: different effects of respiratory and metabolic acidoses. 285

JAFFE Laurinda A. & SCHLICHTER Lyanne C. Fertilization-induced ionic conductances in eggs of the frog, *Rana pipiens*. 299

DURUBLE Michel, DUVELLEROY Michel, GAUDUEL Yann, MARTIN Jean Louis & TEISSEIRE Bernard Transient responses of coronary flow in the blood-perfused isolated rat heart submitted to changes in oxygen content. 321

BROWN D.A. & SELYANKO A.A. Two components of muscarine-sensitive membrane current in rat sympathetic neurones. 335

AMMON H.P.T., FAHMY A., MARK M., STRÖLIN W. & WAHL M.A. Failure of glucose to affect ^{86}rubidium efflux and ^{45}calcium uptake of fetal rat pancreatic islets. 365

COOK N.S. & HAYLETT D.G. Effects of apamin, quinine and neuromuscular blockers on calcium-activated potassium channels in guinea-pig hepatocytes. 373

KOESLAG J.H., LEVINRAD L.I., LOCHNER J. DE V. & SIVE A.A. Post-exercise ketosis in post-prandial exercise: effect of glucose and alanine ingestion in humans. 395

HAINSWORTH R., RANKIN A.J. & SOLADOYE A.O. Effect of cephalic carbon dioxide tension on the cardiac inotropic response to carotid chemoreceptor stimulation in dogs. 405

FORD R., HAINSWORTH R., RANKIN A.J. & SOLADOYE A.O. Abdominal vascular responses to changes in carbon dioxide tension in the cephalic circulation of anaesthetized dogs. 417

WILLS N.K. Apical membrane potassium and chloride permeabilities in surface cells of rabbit descending colon epithelium. 433

HODGKIN A.L., MCNAUGHTON P.A. & NUNN B.J. The ionic selectivity and calcium dependence of the light-sensitive pathway in toad rods. 447

SINGH Jaipaul Mechanism of action of insulin on acetylcholine-evoked amylase secretion in the mouse pancreas. 469

CLAMANN H. Peter, HENNEMAN Elwood, LÜSCHER Hans-R. & MATHIS Johannes Structural and topographical influences on functional connectivity in spinal monosynaptic reflex arcs in the cat. 483

KALSNER Stanley Cholinergic mechanisms in human coronary artery preparations: implications of species differences. 509

GIBSON A.R., HOUK J.C. & KOHLERMAN N.J. Magnocellular red nucleus activity during different types of limb movement in the Macaque monkey. 527

GIBSON A.R., HOUK J.C. & KOHLERMAN N.J. Relation between red nucleus discharge and movement parameters in trained Macaque monkeys. 551

PROCEEDINGS OF THE PHYSIOLOGICAL SOCIETY

14–15 *September* 1984

Oxford Meeting

DEMONSTRATIONS

Eldridge J.L., Morgan J.E. & Thompson I.D. A versatile mammalian stereotaxic headholder for visual neurophysiology. 2*P*

Caro C.G., Lever M.J., Morgan G.E., Parker K.H. & Winlove C.P. Studies of transport in deformable porous materials with relevance to connective tissue properties. 3*P*

Livingston A., Morris R. & Nolan A. A thermal stimulus device for studying the effects of antinociceptive drugs in the sheep. 4*P*

Moss V.A. The use of computerized image analysis to measure the mechanical response of the isolated rat vas deferens. 5*P*

Ashley C.C., Godber J.F. & Timmerman M.P. Simultaneous recording of force and fluorescence changes in voltage-clamped *Balanus nubilus* single muscle fibres using the Ca^{2+} indicator quin 2. 6*P*

Ashley C.C., Griffiths P.J., Potter J.M. & Thomas M.V. Detection of transient TnCDANZ fluorescence and aequorin luminescence signals from single *Balanus nubilus* muscle fibres. 7*P*

Ashley C.C., Godber J.F. & Walton A. Microscope-image intensifier studies on single quin-2-loaded muscle fibres from the barnacle *Balanus nubilus* under voltage clamp. 8*P*

COMMUNICATIONS

Armstrong-James M.A. & George M.J. Bilateral receptive fields in Sm1 neocortex of the rat. 9*P*

Angel A. & Rebollo Herrero Irene The interrelations of the ventrobasal thalamus, the somatosensory cortex and thalamic reticular nucleus: a HRP study in the rat. 10*P*

Djamgoz M.B.A. Glutamate induces an increase in extracellular potassium activity in a cyprinid fish retina. 11*P*

Low J.C. Rod photoresponses from isolated retinae of +rd mouse and RCS rat. 12*P*

Thompson I.D. Retinal projections of neonatal mammals visualized in wholemount preparations. 13*P*

Derrington Andrew Interactions between receptive field and periphery in cat LGN cells. 14*P*

Vidyasagar T.R. Effect of bicuculline on the length-response functions of cat striate cortical cells. 15*P*

Blakemore Colin & Price David Organization and development of orientation columns in area 18 of the cat's visual cortex. 16*P*

Hallett Helena M.E. & Hallett P.E. The scale of the visual pathways of the mouse and rat. 17*P*

Fitzke F.W., Hayes B.P., Hodos W. & Holden A.L. An electroretinographic investigation of experimental myopia in chicks. 18*P*

Friedlander M.J., Martin K.A.C. & Tootle J.S. The post-natal development of the axonal arborizations of Y cells of the lateral geniculate nucleus (l.g.n.) projecting to area 18 of the cat's cortex. 19*P*

Clements J.D., Nelson P.G. & Redman S.J. Intracellular tetra-ethyl ammonium ions enhance group Ia excitatory post-synaptic potentials evoked in cat spinal motoneurones. 20*P*

Ashwood T.J. & Wheal H.V. GABA responses in CA1 pyramidal neurones in slices of the kainic acid (KA) lesioned rat hippocampus. 21*P*

Lodge D., Thomson A.M. & West D.C. A Mg^{2+} and ketamine-sensitive e.p.s.p. in slices of rat somatosensory cortex: a role for *N*-methylaspartate receptors. 22*P*

Mason S.T. Effect of monoamine oxidase inhibitors on thiopentone anaesthesia in the rat. 23*P*

Benns Louise M. & Hanson M.A. Study of neurones in rat trigeminal nucleus caudalis excited by stimulation of meningeal nociceptors. 24*P*

Hellon R.F., Mokha S.S. & Puri R. Suppression of trigeminal noxious and 'cold' inputs in rats by hypothalamic stimulation. 25P
